

Agenda Item 10(d)

Derbyshire County Council email 13 May 2024

As part of supporting county and local councils' mental health priorities, we've been putting Mental Health messaging in bus stops across the county. So far we've been given permission from Derbyshire County Council and High Peak BC.

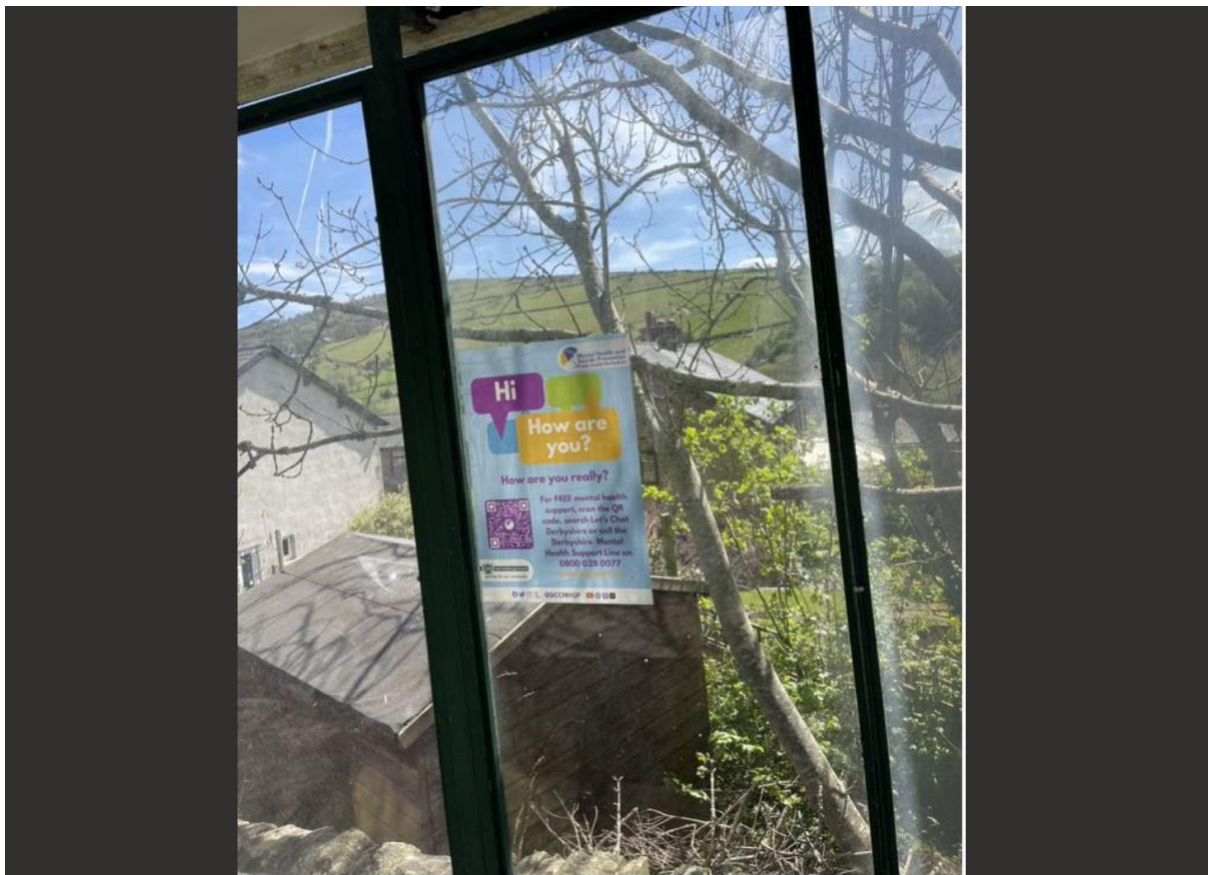

I've attached photos of the messaging and what it looks like so far.

As we reach out to other areas, would you be able to put us in touch with your local parish contact for this for this permission.

So far, we've got support from the mentions as well as Eckington Parish, South Derbyshire, Chesterfield, and Bolsover. I've attached a photo of the graphics, and at the moment, it's got the NED logo on for continuity, but I'm happy to put the parish logo on.

We would, however, need a list/ location of those bus stops, and we can crack on with this. At the moment, there is just me putting them up, so any local support would be welcomed.

Support would be welcomed, and if we can align all parish, we can get them up in the same few days

How are you really?
