Re: Consultation on Local Validation Lists for Planning Applications

I am writing to inform you that North East Derbyshire District council is today launching a 28 day consultation on a local validation requirements checklist for planning applications.

A copy of the revised Local Validation List is attached.

The Consultation is open for 28 days from today, 13th June 2024 until 5 p.m. on 11th July 2024

After the consultation period, North East Derbyshire District Council will consider all the comments received and amend the Local Validation List as appropriate. Once approved this will form the basis on which planning applications are deemed valid by the Council.

Please note, although it will not be possible to respond to specific comments, all comments will be recorded and fed into the consultation process.
