No

If you are awarded a grant do you agree to supply the Parish Council with details of how the grant has been used in 6 to 9 months time?

Yes

How much money are you applying for?

£4200

If awarded how do you intend to use your grant?

This grant will allow us to purchase, install and maintain an Automatic Number Registration Plate Recognition camera. This would collect and record valuable information in both directions of the road which will be used to target drug supply, burglary, theft offences and other acquisition-based crime in and out of ECKINGTON as well as the surrounding areas. A lamp post of choice would provide a suitable lighting, and a safe working environment for the deployment of the proposed ANPR camera.

ANPR cameras will support other tactics in the identification of people/vehicles used in the burglaries and theft offences. It will identify patterns of behaviour and direct enforcements against these subjects. It would also support a range of policing opportunities across the full spectrum of criminality and road safety/casualty reduction. This deployment will complement existing ANPR infrastructure for which we now have National coverage.

The data will be analysed and monitored through police databases, Police resources will then be utilised to act upon the information given by the ANPR camera.

Our ANPR infrastructure is strategically placed to capture the best possible data, and although we might not have a camera on a particular road suggested by the SNT or the Parish Councillors, the arterial entry and exit routes to that area are likely to be covered should this application be accepted.

Are you applying to other funders for this projects?
